Spreading Awareness on Celebrating Eco-Friendly Ganesh Chaturthi

"Save Nature, Save Our Future"

No. of Participants: 40

The NSS Volunteers of Bishop Cotton Women's Christian College organized an awareness programme on "Celebrating Eco-Friendly Ganesh Chaturthi" on 11th September 2026 at Shanti Nagar and Sudhamanagar.

The volunteers visited nearby houses and interacted with residents, creating awareness about celebrating Ganesh Chaturthi in an eco-friendly and responsible manner. They encouraged people to use eco-friendly idols, natural colors, avoid plastics and harmful materials.

The volunteers shared simple ideas for making the festival more environmentally friendly. They encouraged residents to choose clay idols and natural decorations that are safe for the environment.

They also spread awareness about keeping the surroundings clean, reducing plastic waste, and protecting nature during the celebrations. The activity motivated the community to celebrate the festival in a more responsible and eco-friendly way.

The awareness activity helped the NSS volunteers interact with the community and spread the message of environmental responsibility. It also encouraged residents to make small changes that can help protect nature for future generations.

The programme concluded with the message "Save Nature, Save Our Future," encouraging everyone to celebrate Ganesh Chaturthi with devotion while caring for the environment.
