

Department of Botany:

- The Department of Botany is involved in maintaining the medicinal garden of the college. Each student is allotted plants and the responsibility of the student to nurture and take care of the plant.
- The students also show their skills in creating wealth out of waste by creating planters by painting the used tender coconuts and also painting pots with the various art forms. These pots are used to be given as green mementos to guests.

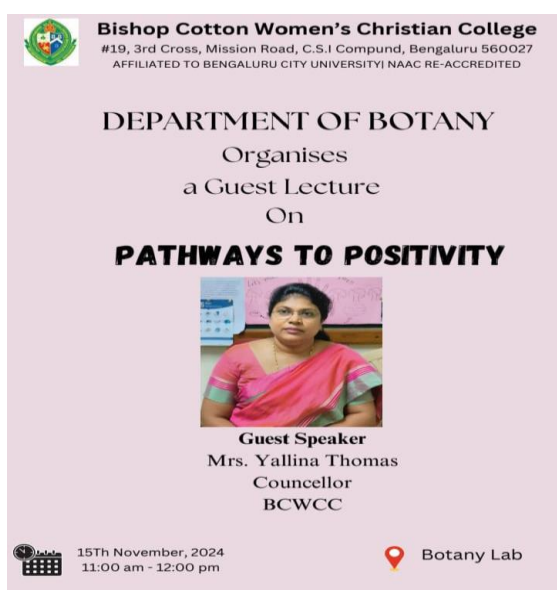

- The IDP International Educational Specialist had a session on 2nd July 2024 with the students to brief them about the prospects of studying abroad and gave the students an insight about various competitive exams to be taken by the students.

- On October 23rd the B.Sc. students were taken for a visit to Visvesvaraya Technological Museum the students had an opportunity to see various models on display and were also excited to use certain working models.

- On 15th November a guest lecture was organized on “Pathways to Positivity” by Mrs. Yallina Thomas, Councillor of BCWCC. The students were encouraged by the talk opening up about various concerns related to peer pressure.

- On 21st November the students of I, II, III B.Sc. had an opportunity to visit Indian Institute of Horticulture Research (IIHR), Hesaraghatta the students were taken to the field to visualize the various hybrid breeding techniques and were also briefed about the various ongoing projects at IIHR.

- During the Annual Fest” DISHA” the department of botany organized the event “Floral Apparel”. This gave the students and opportunity to showcase their creativity by designing beautiful apparel using flower petals.

- The Institution Innovation Council of the college organized an Exposure field visit to KR Market and Gottigere village for the effective problem identification in alignment with the UN SDGs. On April 26th the I year B.Sc students early in the morning went to KR Market to interview some of the flower vendors to find out the challenges that they face in their business. The main purpose of the visit is to interact with the key stakeholders and identify the real life problems that require solution.

- On May 9th the department of Biotechnology and Botany jointly organized a talk on “Bridging the gap between education and career in the Biotech Industry” by Dr. Anirudha Lakshminarasimhan. The students were richly benefitted by the session as it was an eye opener to the wide-open broad career prospects.

- On 13th May the students of B.Sc visited the Chanakya University, Global Campus, Devanahalli for a one-day workshop on “Protein Purification and Analysis of Gene Expression”. A unique opportunity to experience cutting edge biology research and to interact with the subject experts.
