ECO WATCH CLUB REPORT-MAY-2025

The Club elected its President, Ms. Sanjana Dinesh of III B. Sc and the vice-President Samra Siddiqua for the academic year 2024-2025. Various activities were planned and executed under their leadership. In accordance with the plant4Mother campaign launched by Hon'ble Prime Minister on World Environment Day, June 5 2024, a one-day plantation was organized by the club on 17th September 2024. Students from various streams brought plants both medicinal and ornamental, which was planted in the campus. This is an initiative which calls for planting trees as a tribute to mothers and to promote environmental conservation across the country. As communicated by the Government, the HEI have actively participated in this campaign and as many as 30 saplings have been planted in the campus since the campaign's launch.

Clean drive was organized on November 12th 2024 to create awareness about cleanliness and energy conservation in the classrooms. Students also emphasized on reducing plastic wastes and segregation of wastes in the campus. They explained about biodegradable and non-degradable wastes and how proper segregation also prevents contamination of recyclables and minimizes the amount of waste sent to landfills.

Clean drive organized by the Eco-watch Club

The club also organized a Fevicryl pouch painting workshop on November 15th 2024 to boost creativity and to give an opportunity to the participants to learn new skills and artistic methods. Almost 20 students took part in this event and exhibited their talents and skills which promoted self-confidence and technical abilities.

Fevicryl painting session in progress

The club organized a trip to Bannerghatta National Park on the 6th of May 2025 which primarily aims to provide students with hands-on experiential learning. They studied the flora and fauna of the area and also studied the wild life. They interacted with the local villagers to understand their problems as they are located close to the National Park. Many villagers complained about the human-elephant conflicts which are very common in the area. Elephants are attracted to crops leading to damage and loss for farmers, which result in retaliatory actions against elephants. Elephants deliberately enter human settlements causing fear and damage.

Visit to Bannerghatta National Park and interaction with villagers

Earth day was observed on 22nd April 2025. The club organized a painting competition for the students with the theme Save Earth-Our power, our planet on 2nd May 2025 to highlight the importance of our planet and conservation of its ecosystem on all continents and oceans. 10 students participated in the event. This educated the students about environmental issues and challenges like climate change and pollution ultimately aiming to build a sustainable future.

Vermicompost that was generated in the campus was sold to the students and the staff to generate income for the club which was used to buy green mementos for the guests. The compost generated was also used for the campus garden.
