

## Department of Zoology Activities – Odd Semester 2024-2025

The Department of Zoology conducted several engaging activities during the odd semester. A hands-on workshop titled “*Our Sustainable Method for Our Green Space in Campus*” was held on 28th August 2024 for I B.Sc students. Mr. Ambarish from Raitha Mithra guided students in vermicompost bed-making, emphasizing the value of compost in organic farming.

A guest lecture on 4th September 2024 by Mr. Kushal (Research Scholar, Bangalore University) addressed 68 students on human-elephant interaction, stressing habitat loss as the cause of conflict. On 19th November, Mrs. Sarala Sonia (HOD, Chemistry) discussed the “*Application of Radioactivity in Biological Science*” for 40 students, linking syllabus content with real-world relevance.

On 22nd November, counsellor Mrs. Yallina Thomas conducted a session on setting boundaries in relationships for III B.Sc students, which was well-received and interactive.

An interclass competition on “*Urban Wildlife*” was held on 16th November for II B.Sc students, encouraging creative expression through essay and poster making, promoting awareness about urban ecosystems.

The department organized an educational visit to the Indian Institute of Horticultural Research (IIHR) on 21st November, where 85 students explored research in horticulture and pest management. On 22nd November, the department held an Open House for PUC students to introduce them to the B.Sc. Zoology program.

Other activities included a community outreach lab visit for 30 primary school students, an interclass competition on urban wildlife, and an intercollegiate event on wildlife of Karnataka held on 4th December to raise awareness of the region’s biodiversity.
